LIMITED EDITION MOSAICS STAR IN OSCAR® NOMINEE GIFT BASKETS

What would you give an Oscar nominee to ease the pain of losing out on the coveted gold statuette?

How about a star on the Hollywood Walk of Fame? Or at least a miniature mosaic replica.

One of the more unique items in this year's Caesar's Palace Presents "Everybody Wins at the Oscars®!" Nominee Gift Baskets® is a limited edition keepsake box, created specially for the event. With special permission from The Hollywood Chamber of Commerce, the box features a pink star with gold border on a black background. The mosaic design, rendered in painted eggshell, is created by applying hundreds of tiny pieces, one by one, with watchmaker's tweezers, to the top of a custom-made wood box. The result is a stunning handmade replica of the stars on Hollywood's historic Walk of Fame.

Mosaic artist Sherri Lindsay was thrilled when Distinctive Assets liked her website and chose her company, Quiltblox®, to participate in their second annual gifting of non-winning nominees in six major categories. "It's an honor to be included in a gift basket known for showcasing the latest and coolest items." Her Kansas studio has been a flurry of activity since mid-December, with the boxes being produced on an average of one per day.

So, while Oscar® will go home with only a select few stars, a select few stars will go home with many because "Everybody Wins at the Oscars®!"

End
